

TRS Mechanical

Emergency Dispatch Alert Consent

For employee and contracted on-call technician onboarding or assignment

Technician Name

Employee Number

Mobile Number

Effective Date

Supervisor / Administrator

Consent to operational SMS alerts

By voluntarily providing my mobile number and checking the box below, I consent to TRS Mechanical sending me recurring, non-promotional after-hours emergency dispatch alerts related to on-call work assignments. Messages may include job-site or service details and coordination instructions, and may be sent automatically to multiple on-call technicians. Message frequency varies, typically 1-2 alerts per month. Message and data rates may apply. This program is separate from TRS Mechanical's RingCentral 1:1 conversational texting program.

- ☐ I agree to receive TRS Mechanical after-hours emergency dispatch alerts at the mobile number listed above.
- ☐ I understand that I may reply STOP to opt out, START to re-enroll after a temporary opt-out, and HELP for help.

Technician Acknowledgment

I understand that this consent applies to the operational emergency-alert program described above. I may revoke my consent at any time by replying STOP. I understand that replying START will re-enroll this mobile number for future alerts.

Technician Signature

Date

Administrator Verification

I verified that the technician voluntarily provided the mobile number above and agreed to receive the TRS Mechanical emergency dispatch alerts described in this form.
